DETAILED ACTION***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

1. Claims 1-14 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 and 7-19 respectively of prior U.S. Patent No. 6,697,839. This is a double patenting rejection.
2. Claims 15-28 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 20 and 26-38 respectively of prior U.S. Patent No. 6,697,839. This is a double patenting rejection.
3. Claims 29-42 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 39 and 45-57 respectively of prior U.S. Patent No. 6,697,839. This is a double patenting rejection.

The current invention is identical to the prior art (US 6,697,839) word to word except the currently amended (newly added) step of “accessing mapping data to determine whether a mapping of the field in the form to information in the wallet exists” in the independent claims 1, 15 and 29. However, this step only clarifies the “mapping” in the step “accessing the wallet to retrieve information to enter into the at least one field, if at least one **mapping** of the form exists”, and does not differentiates the current invention from the prior art.

Response to Arguments

4. Applicant's arguments with respect to claims 1-42 have been considered but are moot in view of the new ground(s) of rejection.
